

Catoctin Monte National Touring Rally and Regional Rally Route Instructions Addendum

Afternoon portion – please note the following route instruction changes:

8.86	2.57	18.	Bear left (avoid 17).
29.68	1.29	93.	Control 26, Key Time 4:40.33. This control will be unmanned.
51.04	1.48	109.	Left toward "Summit Point Raceway".

Tell the worker at the gate that you are with the SCCA Road Rally. If they want you to sign a waiver, similar to the one you signed at registration, please do so.

The worker at the gate, or a nearby rally official, will direct you. (You will likely drive straight ahead to the staging area where you will line up in car number order, or to the pit and Chez Summit area where our barbeque will be located.)

Track Section – If the track is wet, the Rallymaster may adjust the relative key times as shown in the following chart. We will announce which times will be used before the Track Section begins. Do not start the Track Section until you know which relative key times to use!

<u>Control</u>	<u>Original</u>	<u>Adjusted</u>
T1	0:00.44	0:00.49
T2	0:01.22	0:01.34
T3	0:01.52	0:01.67
T4	0:01.94	0:02.13
T5	0:02.54	0:02.79
